

BIG SANDY NEWS.

FRIDAY, AUGUST 2, 1895.

Up to Date.

The fly that once through Tara's halls
Went buzzing sad and lone
Now has a myriad of friends,
A family full grown!
And when old Tara falls asleep,
On each warm summer day,
They meet on his bald pate and dance
Ta-ra-ra boom-de-aye.
—Pittsburgh Telegraph.

How happy it would make us,
No needful thing we'd lack,
If we could but look forward
As easily as back.
—Truth.

Considerable timber went out on the recent rise.

W. D. Roffa is assessing the Louisa school district.

Miss Phoebe Northup arrived home Saturday from New York.

Rev. C. H. Williamson and family, of Lewistown, Ill., are here visiting.

Leonard Drake, of Cincinnati, was visiting Louisa friends this week.

Miss Sallie Freese will be home for a brief visit in about two weeks.

Mr. Harry Dalton, of Cincinnati, is the guest of R. T. Burns and family.

Dr. Wells, of Ashland, was called to Louisa on professional business this week.

D. E. Hughes and Leo Drake, Clerks of Mingo county, W. Va., were in Louisa this week.

Mrs. G. W. Castle arrived Saturday from Washington, D. C., to visit home folks for a few weeks.

Mrs. Jennie Childers, one of the oldest women in the county, died last Monday at the age of 90 years.

The evening train whistled five minutes ahead of time the other day, but she repented the day after.

Two horse-rack puddles of filth continue to offend the nose and eye. Half an hour's well-directed work would abate the unsightly nuisance.

Cards are out announcing the marriage of Mr. Frank Diamond to Miss Stella Ellis, which will take place to-morrow at the Baptist church.

The Lawrence county Institute will be held at Louisa, as heretofore announced, beginning August 12th, with Prof. John C. Willis as instructor.

There is now on the road from Duane & Co., Cincinnati, a choice selection of sterling and quadruple silverware, some fine imported ware, and some genuine cut glass, for Conley's Jewelry Store.

Dr. W. L. Walter, of Paintsville, was in Louisa Monday. We are glad to learn that he and Dr. Fugitt are doing well. They are very bright, competent and deserving young physicians.

A dwelling occupied by Josse Cyrus in the town of Blaine burned last Sunday. It was the property of John Hays. It was only by the greatest efforts that the residence of Harry Gambill was saved.

Mrs. Norton, of Ashland, has originated and put on the market a very interesting game of cards called Geography. The game is not only interesting but is quite instructive, and as a pastime for the children it can not be surpassed. It sells for 25 cents.

Why don't some of our citizens make a kiln or two of brick? There is a continual demand at this place and the people are compelled to buy them in Catsburg and Ashland, and the expense of getting them here is almost as great as the cost of the brick.

Elizabeth Nicely had on exhibition at Blaine, this county, recently her four-months-old triplets. Two of them are boys and the other a girl, and all strong, healthy children. She is a daughter of Abner Caudill and has been married twice. The trio created a good deal of interest at Blaine.

Signs of Conference are in the air. Grocers are exhorted to close the contracts for garden truck, deliverable on or about September first, and Meloy is entreated to keep his chickens at home. The nineteen incubators in town are working full force, and the hens are working double time. The few old roosters left over from a gathering held three years ago are looking grave and apprehensive as they meditate over the slaughter done on that occasion, but while they mourn, and are filled with grief at the prospect of coming disaster, they feel sure that their toughness will save their necks.

A new line of sterling silver belt pins at Conley's at 30c each.

John Davis, of Carter, is the Republican nominee for the Legislative district composed of the counties of Carter and Elliott.

Mrs. Phoebe Hull, an aged lady known to many of our people, was thrown from a buggy by a runaway horse, near Round Bottom, W. Va., a few days ago, and received injuries from which she is not expected to recover.

The name of Granville Frazier was erroneously placed on the list of delinquent tax-payers returned by the Sheriff and published, for the year 1894. Having heretofore been exonerated, he did not owe any tax for that year, but was assessed by mistake.

G. F. JOHNSON,
Dep. Assessor.

Mr. George J. Carter and Miss Lula Lakin were married Wednesday evening at the home of the bride in the lower part of this county. The NEWS offers heartiest congratulations to this estimable young couple, and wishes them the best of everything in life. They are members of two of the best families of our county.

The new county road which is to be built from Richardson down to the Blackberry branch was contracted for last Monday by Supervisor O'Neal. The successful bidders were Mose Vanhoose, Ran Hinkle, Dave Kise, Simon Bartlett and Clall Hawes. This work is to be paid for out of the money which the railroad paid the county as damages to the county roads in that section.

On the 10th evening of August, beginning at 7 p. m., there will be a box supper and festival at Bussysville, consisting of boxes, ice-cream and cake, lemonade, bananas, nuts, candies and beautiful women and nice gentlemen, and all that can combine to make up a happy evening.

NARD HOLT,
GEO. PICKEL,
J. F. MEER,
JOHN MEER,
Committee.

Elsworth Norris and Josh York have dissolved partnership in the very prosperous grocery business in which they have been engaged for the past few years at Catsburg. Elsworth retires from the business, leaving Josh sole proprietor. Elsworth will, on September 1st, go on the road as traveling salesman for the Flach Bros. Grocery company, a prominent wholesale house of Cincinnati. They are both young men of excellent business capacity and have made a great success in business. We are informed that Elsworth retired from the retail grocery business because the confinement was injuring his health.

We cannot refrain from noting that some people who were fed and partly clothed during the past two or three winters by the charitable people of Louisa were among the most liberal patrons of the flying dutchman while at this place a few days ago. Not only the children, but the parents rode the thing. There is no charity in feeding such people. They can find the cash to waste on such abominable nonsense as this and they should most certainly be allowed to hustle for their food and clothing. Charitable efforts often do as much harm as good. When it fosters idleness it is a bad thing.

The Lawrence county Sunday School Convention held Blaine last Saturday was an entire success. The attendance was very large and the program was carried out in an unusually able manner. Much interest was manifested and new interest awakened in the cause, and much good will doubtless follow as a result of the meeting.

The many visitors were warmly received and well cared for by the hospitable people of Blaine, and their kindness will long be remembered by all who were there.

The officers of the organization were re-elected for another year. The next meeting will be held next summer on Bear creek.

One of those peripatetic nuisances known as a Flying Dutchman came to town last week and opened for business on the base ball grounds. Several things contributed to lessen its stay and its income. The weather was not propitious, the special tax was steep, and nickels did not seem abundant. The concern got up steam Saturday and Monday, and Tuesday it got up and left.

We have no use for such concerns. They are entirely useless, not pretty to look at, and certainly not captivating to the ear. Moreover, they are demoralizing to a degree not suspected by the decent public.

We are glad the city council put the tax high, and hope it may be made so high as to be prohibitive.

\$2,500 and Costs.
The attorneys representing Mr. J. F. Kendrick in his suit for damages against the N. & W. railroad company, have agreed to a settlement of the matter by the payment of \$2500 and the costs of the suit and the attorneys fees. The attorneys were J. W. M. Stewart and A. J. Garrett, and the settlement is regarded as a victory and quite a "card" for them. They handled the case very skillfully.

Dr. Williams Killed.

Many Louisians will remember a Dr. Williams, a veterinary surgeon who appeared here a few weeks ago, accompanied by his wife. They first took quarters at Mrs. Sarah Blankenship's, but later went to board with Mrs. Haws, opposite the post office. He remained here some time and had quite a good practice. From this place Williams went to Blaine where he did some work, and from Blaine he went to Willard and vicinity.

Last Friday he was at the railroad station at Willard, waiting for the train to take him to Webbville. While thus waiting he became involved in a quarrel with L. D. Landers, the marshal of Willard. Only a few words had passed between them when the marshal shot Williams with a pistol, killing him almost instantly. The day before the murder the two men had some words over the treatment of a man whom the marshal had arrested, and the tragedy of Friday is supposed to have been the outcome of the difficulty of the preceding day. Landers was arrested and taken to Grayson for trial. He waived an examination, and in default of \$4,000 bail was committed to jail. From what we can learn, and from the amount of bail required, we are led to believe that there was little or no provocation for the killing of the unfortunate man. A man with a "gun", backed by a little brief authority. A chance to use one and display the other. Result, another "Kentucky Killing". No man is a legally qualified juror unless he is sober, sensible and discreet, and before our people make men peace officers and arm them with deadly weapons they should see to it that they, too, are sober, sensible and discreet, and men of good demeanor.

Marcum in Custody.

It will be remembered that some time ago the barn of Oliver Loar, who lives in Wayne county, W. Va., just opposite Fuller's station, this county, was, with its contents, destroyed by fire. It was supposed to be the work of an incendiary, and Calloway Marcum, who lives at Fuller's was arrested, charged with the offense. He was brought to Louisa and arraigned before Judge Woods, but his examination was several times postponed on account of the absence of witnesses for the defense. Tuesday last a deputy sheriff from Wayne county appeared in this city armed with a requisition from Governor McCorkle, intending to take Marcum to West Virginia at once. Marcum's attorneys immediately obtained a writ of habeas corpus, returnable before Circuit Judge Kinner at Catsburg. Wednesday morning the prisoner was taken to Catsburg, accompanied by his lawyers, Messrs. A. J. Garred and H. C. Sullivan. After an examination before Judge Kinner the writ was discharged and the prisoner delivered to the officers from West Virginia and by him was taken to Wayne.

Whatever of lack of manufacturing enterprises may be said of Louisa it can be truthfully said that its milling interest is fully up to par with other Kentucky cities of its size. The plant of the Louisa Milling Company is fully equipped with all the modern appliances for the manufacture of high grades of flour. Since the acquisition of the mill by the Louisa Milling Company the business has steadily increased and to such an extent that it has been found necessary to add additional machinery, to increase its output, and also to remodel it from garret to cellar. This has been done under the personal supervision of our former townsman, Mr. J. T. Leonard—a miller of wide experience.

The mill is now busily engaged on the new crop and is giving general satisfaction to owners and patrons. The famous "Emerald" brand of flour stands at the head—and for quality is not surpassed by the more pretentious mills of Kentucky or elsewhere. "Old Gold," a fancy or second patent, has acquired a standing worthy of its merits and may be said to be the popular brand of the valley. Mr. James M. Rose is miller in charge, and has already proven himself worthy of his position. Major Burchett, whom everybody knows, is president of the Co. and also manages the general business of the concern.

With a bountiful crop of wheat in the valley and a patronage which appreciates the advantages of a modern mill in Louisa we predict a very successful year for the Louisa Milling Company.

A WRECK.

of the physical constitution often comes from unnatural, pernicious habits, contracted through ignorance or carelessness. Such habits result in loss of mainly power, nervous debility, impaired memory, low spirits, irritability, and a host of other derangements of mind and body. Epilepsy, paralysis, softening of the brain and even death may result from such reckless self-abuse. To reach, reclaim and restore such unfortunate to health and happiness, is the aim of the publisher of a book written in plain, easy-to-understand language, on the nature, symptoms and curability, by home treatment, of such diseases. The book will be sent, sealed, in plain wrapper, on receipt of ten cents in stamps.

A revolution in lamps and illumination is one of the great events of the near future. Of course the lamp will be an electric one, and the light will be brilliant and cheap. The invention, or the discovery, for it is partly both, is due to an electrician named Roberts. According to the Scientific American, most excellent authority, Edison has examined the new lamp and pronounced it a marvel. According to this authority the coming lamp contains a kind of sand. In this sand are two wires, crossed, leading into the usual electric burner. A certain acid is poured upon the sand and the lamp thus becomes charged. One charging is sufficient for 600 hours, and the cost of charging is seventeen cents. The light can be turned on and off at pleasure. Allowing five hours as the average time a light is burned each night, and this is a very liberal allowance, we have in this new lamp a service of brilliant light for 120 days, or 4 months, for the insignificant sum of 17 cents. Nothing is said of the first cost of this wonderful lamp, but at such a small cost for charging it its price would be high indeed to keep it out of general use.

The new light and the new woman are coming in together. If they can not lighten and enlighten the world then are we indeed in darkness.

Cash Annual Incomes

Are very desirable, and are best obtained by taking an installment endowment in the Union Central Life Insurance Co. of Cincinnati, Ohio. A \$10,000 twenty year installment endowment policy at age 35 would show these results: Annual Premium, \$295.33 Total paid 20 years, \$5,906.60 At end of 20 years the \$10,000 is due and is paid to you in 20 annual cash installments of \$500 each, thus making a most desirable income in your old age. In case you die before 20 years the \$10,000 is paid to your family in 20 installments of \$500 each. You get a handsome cash income in your old age and if you die your family gets \$500 annually for 20 years.

COLLETT & ANDERSON,

We of the band desire to express through the medium of the BIG SANDY NEWS our thanks to all who in any manner contributed to our pleasure on our memorable trip to the town of Blaine. Nothing in the little village was too good for us on that occasion. The barn yard, the poultry coop and the preserve closet yielded their sweets and treasures, and our capacity for solid and liquid refreshment was put to its utmost test. We had a first-class time in every particular, and to Messrs. A. M. and John Holbrook, H. H. Gambill and Monroe Walters we return special thanks.

OUR NEIGHBORS.

Samuel Crawford, of Walbridge, has been granted a pension.

K. N. Salyer has been appointed postmaster at Dorson, Pike county.

Four criminals were sent from Pike county at the last term of court to the penitentiary.

J. M. York, of Pikeville has been appointed a United States Commissioner.

The bond of C. M. Wilkinson, held at Huntington charged with embezzlement, has been increased from \$500 to \$2100. The shortage is now placed in full at \$2500.

The last term of the Pike Circuit Court was the largest ever held, being in session the full four weeks allowed. Hon. C. M. Parsons was special judge, and his service is highly complimented by the Louisa attorneys who were there.

The old Preston furnace and lands, near Ashland, Ky., is about to pass into the hands of Boyd county to be used as a park. This was the first furnace constructed west of the mountains, having been built in 1789. The cannon balls used by the Americans at the battle of New Orleans in 1815 were cast at this furnace—Ex.

A certain Greenup county young man was in love. His path was not a smooth one, for he had a rival. He went hunting one night recently and bagged a pole-cat. In returning home he passed a house where a dance was in progress. Through an open window he spied his lady love and his rival in close communion. He at once gave vent to his feelings by throwing the pole-cat at the young man, but the odoriferous missile went wild and struck the object of his affections in the face. He was immediately given chase and soon captured and upon the suggestion of the unfortunate young lady the skunk was tied to his breast, in a position which would give him the full benefit of the odor, and he was marched two miles in this plight, with his hands bound behind him. This story was published in the daily papers a few days ago.

Floyd County.

PRESTONSBURG.

Institute began here Monday. John H. Johns delivered the opening address which was splendid.

Hon. Jno W. Langley gave a lecture upon the "Big Sandy Valley" Wednesday night, of its past, present and its future. It was simply grand. A pin could have been heaped to drop as the eloquent language fell from the lips of this eloquent speaker.

A heated discussion occurred between D. M. Allen and John H. Johns upon the question Resolved, "That we should have a compulsory system of education in Kentucky." The battle was indecisive. T. O. Burchett is erecting a three story veranda to his fine hotel. The entertainment was quite a success.

It was moved and seconded that the coat of Joe Need be cut off and sewed to the coat of J. D. Turner at the expense of the institute yesterday. It was also moved that Harman Maynard be taken to the "Zoological Garden"—and caged, and that E. J. Harris be taken to the lunatic asylum.

The "wood chuck poem" is the latest. Lots of fun at institute yesterday.

Miss Lida Richmond is expecting some one before long, and we are afraid of losing her.

Several of our young converts were out at the dance last night at the court house. We fear that it was a new fashioned religion that they had.

No one as yet has been appointed to the office of county commissioner or vacated by Jno. G. Johns, who was appointed U. S. Commissioner by Judge Bar to fill the vacancy caused by the death of Judge R. S. Friend. M. T. Allen and Wm. H. May are aspirants for the office.

The sewing circle met at Mrs. G. R. Davidson last Thursday.

Frank Jones is running a first class butcher shop. Same here—Ex.

Misses Meta Smith, Lucy Ford and Ollie Power are calling on Mrs. Lee May today.

Frank, why have you laid down your cane? Are you well since you met Miss Wells?

Stuck on Kentucky.

Dr. Wm. Rose, who was paroled from the penitentiary with the understanding that he was to leave Kentucky and not return, came back recently and was put back to serve out the remainder of the sentence. When asked why he had returned he said, "I'd rather be in Kentucky and stay in jail than have a free man in any other State."

Employ modern painters, who work by modern processes, who use modern tools and do your work at modern prices. There are some old moss-back painters who have been in business 30 years, who charge you war prices, who do not advertise, who paint with antiquated tools, who do not study new methods or take or read any of the trade papers—they are BACK NUMBERS! Why employ them? BUSINESS MEN don't do so. They look at their pocket-books and employ men who do work up with the times!

BIG PROFITS - On - Small Investments.

Returning prosperity will make many rich, but nowhere can they make so much within a short time as by successful speculation in Grain, Provisions and Stock.

\$10 Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system. It is a well known fact that there are thousands of men in the United States who, by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 to \$100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

WRITE FOR CONVINCING PROOFS, also our Manual on successful speculation and our Daily Market Report, full of money making pointers. ALL FREE. Our Manual explains margin trading fully. ago, has been restored. Ex-Senator J.
P. Huff, who had his pension divided,
has also been restored.

PROF. METZ, of the Central Park
museum, New York, is in charge of the
mound-diggers near Mayslick, Mason
county. At a depth of six feet an old
cave was found, showing that the
mound-builders raised maize. A dog's
head was also found in a state of good
preservation.

THERE were two killings in Pike
county the other day, and both are said
to have been in self-defense. The vic-
tims were Will Thacker and Jim Cole-
man, and the slayers were John Mat-
ney and Jake Smith.

JIM DAVIS and Shelby Hayden tried
to break up a Negro church social at
Owensboro by firing pistols at the
master of ceremonies, Buck McFar-
land. McFarland beat his way through
a club so severely that they died.

ALVIN MALACOTE, a young man who
came to Paducah from the Indian ter-
ritory about a year ago, fell in an epi-
leptic fit on the pavement at Paducah

T. H. Hines special judge to try the
case of Wynn vs. People's bank, from
Bell county, in which some sen-
sational developments are expected.
Judge Hines left at once for Pineville,
and will proceed with the trial.

PIERCE shooting, next to the en-
campment, is engrossing the attention
of Henderson's leading citizens. Col.
E. G. Seebree, jr., is said to be the
worst shot among the would-be mark-
smen.

The Kentucky Central railroad has
adopted orange and canary as its col-
ors, and has so painted all of its depots
between Paris and Covington.

An old man named Luther Webster
makes his home in the hollow of a big
oak tree in Hancock county. An
old coon and her young ones are his
only near neighbors. They have a hole
in one of the upper limbs of the tree,
and are on friendly terms with the old
man.

Beware of Ointment for Cat-
arrh that contain Mercury,
as mercury will surely destroy the sense
of smell and completely derange the whole
system when entering it through the mu-
cous membrane. Such articles should never
be used except on prescriptions from
reputable physicians, as the damage they
will do is tenfold to the good you can
possibly derive from them. Hall's Catarrh
Cure, manufactured by F. J. Cheney &
Co., Toledo, O., contains no mercury,
and is taken internally, acting directly
upon the blood and mucous surfaces of
the system. In buying Hall's Catarrh
Cure be sure you get the genuine. It is
taken internally, and acts in the blood,
by F. J. Cheney & Co. Ten cents per
bottle. Sold by Druggists, price 7c per bottle.

**IF YOU HAD
A LOAD OF
WOOD TO SELL**
and told
every man you met that you had a
load of wood to sell, and every man
you met would turn and tell every
man he met that you had a load of
wood to sell, it would, in course of
time, become pretty well circulated
that you had a load of wood to sell;
but why not cut it short—not the
wood, but the method—and place a
good ad in a good newspaper and
tell everybody at once "Delays are
dangerous," and a good newspaper
would start in where the last man
left off and keep on telling every-
body that you had a load of wood
to sell. Suppose you try it in the
BIG SANDY NEWS.

Don't Stop To Buy.
HOW TO GET YOURSELF WELL
FIGHTING.

The tobacco habit grows on a man until
his nervous system is seriously affected,
impairing health, confidence in business.
To quit suddenly is to leave a sick man
to the mercy of a physician, to an in-
vestor becomes a stimulant that his
system continually craves. Bacco-Cure
is a scientific cure, carefully compounded
in all its forms, of an eminent Berlin
Physician who has used it in his private
practice since 1872, without a failure,
purely vegetable and guaranteed per-
fectly harmless. You can use all the
tobacco you want, while taking "Bacco-
Cure," it will notify you when to stop.
We give a written guarantee to per-
manently cure any case with three boxes,
or refund the money with 10 per cent.
interest. "Bacco-Cure" is not a substitute,
but a scientific cure, that cures without
the aid of will power and with no in-
convenience. It leaves the system as pure
and free from nicotine as the day you
took your first chew or smoke. Sold by
all druggists, with our iron-clad guaran-
tee, at \$1.00 per box, three boxes, (thirty
days treatment) \$2.50, or sent direct up-
on receipt of price. Send Six Dollars
and Postage Free. Bacco-Cure, Chem-
ical & Manufacturing Company, Manufac-
turing Chemists, La Crosse, Wisconsin.

At the ceremony among the Kabyles
is interesting because of its comparative
resemblance to the customs of the old
Greeks and Romans, and even to those
which still prevail in sequestered parts
of France. Here is the girl's father
who exacts a wedding portion, a sum
of about eight pounds, for which the
bridegroom has generally to rely upon
the advances of his friends. Often,
too, the young man has not a house for
his bride, in which case his friends set
to work and build one—a very diffi-
cult matter.

On the wedding day the bride is led
through the village with liquid but-
ter, mounted on a mule, and escorted
by friends and relations, who shout
and sing again and again. The
various households hasten forth to
offer her a sheaf of beans, nuts, or
dried figs. Of these she takes a hand-
ful, which she kisses and then replaces
in the sieve. All the offerings are col-
lected in sacks by the old women of
the procession as contributions to the
young people's larder.

At the bridegroom's house the girl's
hands are washed with liquid butter.
Then she gives her some fresh eggs,
which she breaks on the mule's head,
and inside the unhappy animal's ears,
thereby, it is believed, counteracting
any evil designs against her and her
husband's happiness. Before entering
the house she drinks milk, fresh and
sour, and also water, and scatters over
her shoulders a handful of barley, wheat
and salt for the good of the family.

The husband then approaches her
and fires a pistol above her head, to
signify that henceforward he has the
power of life and death over her. Not
infrequently he makes the symbol even
more emphatic by firing into her head-
dress and setting her aflame. This
done, little remains except for the
youth to lift the lady in his arms and
carry her bodily into his house.—All
the Year Round.

Money for a Good House.
Legislative burlesque (Ill.) has
secured the enactment in the agricul-
tural appropriation bill of an item ap-
propriating \$10,000 for the establishment
of a road bureau. The new bureau is
to be placed under the direction of the
agricultural department. The object
of it is to spread knowledge regarding
the building and maintenance of good
roads. An expert on roadmaking will
be placed in charge of the new bureau,
and it will be his duty to prepare and
notify the road laws of the various
states with a view, if possible, of es-
tablishing a national law to control the
road, or rather to induce the states to
adopt uniform laws on the subject.
There is widespread interest in this
subject and while the proposed approp-
